## Coregrass for Parks and Gardens

**COREgrass** ground stabilisation recycled panels are ADA compliant, meaning they are ideal for pedestrian, bicycle and wheelchair traffic. When filled, this product is practically invisible, leaving you with a stunning surface that is easy to maintain.

Turf stays put, with no ruts, no sinking, no problems.

**COREgrass** is environmentally friendly in design, function and material. Many plastic grass grids on the market lack the strength necessary to last and absorb high levels of traffic; not so with our Honeycomb design!

A proprietary interlocking system and manageable sized sheets make for easy installation. **COREgrass** is Ideal for use in hardscapes or landscapes where you need the porosity and beauty of natural grass. Main uses include anywhere you would use grass paving.

<b>COREgrass</b>	<b>50-35</b>	<b>60-40</b>	<b>65-45</b>
Cell diameter	50 mm	60 mm	65 mm
Panel size	1200 mm x 800 mm	1000 mm x 1150 mm	1150 mm x 800 mm
