Sports Field Covers

Today, more groundskeepers protect their fields with one of **Covermaster's** state-of-the-art field covers than any other. With more than three decades of hands-on experience, the strict design parameters have culminated in a line of field covers that meet virtually every field and budget requirement. The many installations of **Covermaster** products in Australasia are testimony to **Covermaster** and **Jayline's** long association.

With our proven raincover handling system, you can install or remove a full size infield raincover in surprisingly little time. **Covermaster** Field Covers are custom made for any field. Let a **Covermaster** field cover, light weight or heavy weight, be at the forefront of your field maintenance program. Together with the widest range of colours in the industry and backed by truly dependable warranties, a **Covermaster** field cover means best value. Available in two styles: **Raincover Plus** and **Raincover RC500**.
