Stokbord

Stokbord is an extremely tough and durable, general purpose, value for money board made from 100% recycled plastic, including agricultural farm film. It can be fabricated and welded for a variety of applications, including Stable lining, Floors, walls and cladding, Partitioning, Sheep and pig pens, Poultry houses, Cattle races, gates and fencing

Stokbord can be used as a safe base around kids play areas. It is also a great alternative to plywood for that cubby house. Stokbord is an extremely tough and durable, general purpose, value for money board manufactured from 100% recycled plastic. It provides significant long term cost savings, as it does not rot, and once installed requires little or no upkeep.

Stokbord can be used as a good alternative to plywood or other material for that privacy screen. Stokbord is an extremely tough and durable, general purpose, value for money board manufactured from 100% recycled plastic. It provides significant long term cost savings, as it does not rot, and once installed requires little or no upkeep.

Stokbord is an extremely tough and durable, general purpose, value for money board made from 100% recycled plastic, including agricultural farm film. It can be fabricated and welded for a variety of applications, including garden beds.
